

I do not understand why we should have to pay per channel to see Religious Programming. We pay more than enough money out to the Cable and Satellite. These Programs should be part of our package deal. My Husband is the only one in our Family working right now and I have been sick for a while now and I love watching Religious Programs but if you make it that we have to pay to watch them I will not be able to afford them. That is so very wrong. so very wrong. Please do not take off the Religious Programming let us have our right to be able to watch them.

Thank You,
Christine Dunlap
